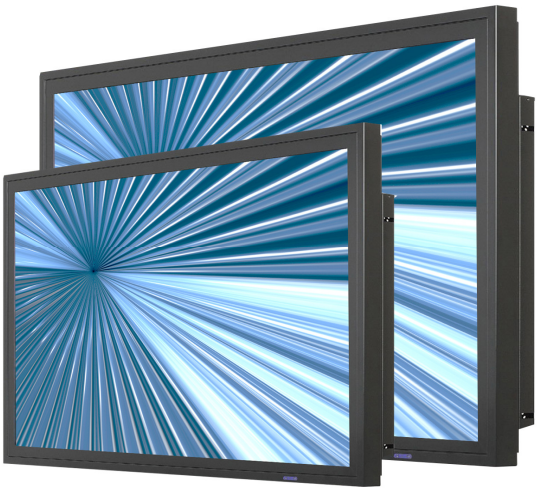
Digital Sign in a Box®

Complete Digital Signage Solution
powered by MediaCast CMS - "get personal"



Our Digital Sign in a Box line includes everything you need to deploy and manage your informational, educational or promotional broadcast network, or a network of interactive displays, quickly and easily. These wide-screen systems are ideal for virtually any environment - from end-caps to corporate offices!

MediaTile - Digital Sign in a Box

The Digital Sign in a Box product line is a complete solution, available in 32" and 42" display sizes. Simply connect the display to the included and pre-configured media player, add power, and your network is ready to run. Powered by the MediaCast System, a robust, web-based Content Management System, you can now "get personal" with your viewers and deliver a highly engaging experience. With our built-in 3G or 4G cellular-based networking option you can deploy your displays virtually anywhere without on-site network infrastructure.

- Complete solution that includes display, media player, networking and integrated MediaCast software and services
- Commercial grade, high-definition LCD display; touch optional
- Media Player is fully configured with MediaCast player software (available in Standard or Premium Media Player configurations)
- Built-in internet support via LAN and Wi-Fi; integrated 3G/4G cellular broadband optional
- Media Player is provided in custom VESA Mount Housing for easy and secure integration with displays and wall mounting
- Powered by MediaCast cloud-based Content Management System (CMS) with complete and secure control from your web-browser
- Advanced content scheduling and monitoring support including: playlists, multi-zones, day part scheduling, Flash content creator, RSS, live video streams, external TV input and other capabilities
