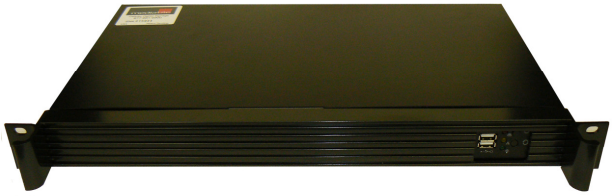
MediaTile MEDIA PLAYER

with the MediaCast "personal advantage"

MediaTile digital signage media players include everything you need to deploy and operate a highly engaging communications network, or a network of interactive touch-screens. Simply connect to an industry-standard display of your choice and add power!



Standard and Premium Media Player options are available based on your specific content needs; both in slim,19" 1U rack mount formats

MediaTile Media Players

MediaTile's Media Player line is a display-independent solution that integrates everything you need to run a digital signage network. With the two Media Player options available, you can easily create, deploy and manage a highly engaging and interactive digital signage network using high-definition and touch-screen displays of your choosing. Standard Audio and Video outputs give you maximum flexibility to support nearly every display option including: SD or HD LCDs, LEDs, projectors, billboards and other compatible devices.

- All-in-one Media Player includes MediaCast player software; just connect to display and add power
- Powerful Intel-based I3 and I5 processor options
- Integrated 3G/4G Wireless option; LAN / Wi-Fi standard
- Support for SD/HD displays via VGA, DVI and HDMI
- Includes wall mount bracket; optional VESA mount housing available for secure, in-line display to wall mounting
- Powered by MediaCast cloud-based Content Management System (CMS) with complete and secure control from your web-browser
- Advanced content scheduling and monitoring support including: playlists, multi-zones, day part scheduling, Flash content creator, RSS, live video streams, external TV input and other capabilities
- Premium player adds support for up to 1980x1080 video, and external (cable) TV input and TV playback within a playlist "zone"

MEDIATILE ADVANTAGES

- **PERSONAL, RELEVANT & ENGAGING:** With our MediaCast *personal advantage* you can create and deliver a highly engaging and relevant experience for your viewers. Improve your communication effectiveness and achieve your ROI/ROO goals in record time with record results.

- **EASY TO USE:** Our cloud-based MediaCast Content Management System (CMS) gives you complete, secure and scalable control right from your web browser. Easily create or access internet content then schedule the right playlists to the right place and time all remotely through the cloud.

- **SIMPLE TO DEPLOY:** Our cloud-connected media players, all-in-one displays and kiosks make deploying and operating a network amazingly simple, flexible and secure. With 3G/4G cellular *just add power*™, or connect to on-site LAN or Wi-Fi.
